

EDUCATION

University of Georgia , Franklin College of Arts & Sciences	May 2027
Bachelor of Science Mathematics Area of Emphasis in Applied Mathematics	GPA: 3.99
Bachelor of Science Statistics Applied Data Science Certificate	
Awards: Zell Miller Scholar, Funded General Scholar of the Louis Stokes Alliance for Minority Participation, CURO Summer Research Fellow (2026), McNair Scholar (2026)	

RELEVANT COURSEWORK

Multivariate Analysis and Statistical Learning, Time Series Analysis, Optimization, Numerical Analysis, Data Structures

TECHNICAL SKILLS

Programming Languages: R | Python | Latex | SQL | Java | MATLAB

Software: Git/GitHub | IntelliJ IDEA | R Studio | Jupyter Notebook | Anaconda | Power BI | Overleaf | Microsoft Suite

RESEARCH AND PROJECTS

The Brain Food Lab, *Undergraduate Researcher*, Athens, GA Oct 2025 – Present

- Investigate how eating behaviors and weight gain influence brain development in children and adolescents using data from the Adolescent Brain Cognitive Development (ABCD) Study
- Clean, preprocess, and analyze large-scale neuroimaging and behavioral datasets using advanced statistical methods
- Contribute to developmental neuroscience research by integrating nutritional, metabolic, and neurocognitive data to explore how obesity influences brain structure and function

Predicting Forest Fires, *Undergraduate Researcher*, Athens, GA Jan 2025 – May 2025

- Conducted exploratory data analysis on a California wildfire dataset containing 14,000 recorded fires from 1984 to 2025
- Implemented and evaluated multiple classification models (Logistic Regression, Random Forest, XGBoost, SVM) to predict wildfire occurrence
- Achieved over 84.2 percent accuracy (AUC) in predicting fire occurrence using logistic regression, demonstrating potential to reduce emergency response times.

Mathematics of Triads, *Undergraduate Researcher*, Athens, GA Sep 2024 – Dec 2024

- Modeled musical triads as points in a two-dimensional vector space and defined a metric using the Frobenius norm to quantify differences between chords of varying qualities (e.g., Major vs. Minor)
- Analyzed symmetries and transformations through group actions and rotation matrices to visualize relationships among triads
- Collaborated with graduate mentor and an undergraduate partner to author a report and present findings at the Graduate Student Seminar and Directed Reading Program Presentation Night

Generating Functions of Fermat Curves Over Finite Rings, *Undergraduate Researcher*, Athens, GA Jan 2024 – April 2024

- Derived the generating function of Fermat curves over finite rings like $\mathbb{Z}/p^k\mathbb{Z}$ using p-adic generating functions
- Developed a recursive formula via Hensel lifting to extend solutions to higher powers of p and generalize for an arbitrary k
- Collaborated with graduate mentor to author a report and present findings at Directed Reading Program Presentation Night

WORK EXPERIENCE

Resident Assistant, *University of Georgia Housing*, Athens, GA June 2024 – Present

- Mentor and support 35+ residents by fostering an inclusive community, creating administrative bulletin boards and resource materials, hosting events and floor meetings, and promoting effective communication
- Serve on call for 1,000+ building residents to address conflicts and emergencies in collaboration with professional staff and UGA Police, while contributing to staff growth through the Professional Development and Staff Enrichment Committee, including co-leading team events

AI Trainer – Image Evaluation, *Handshake AI Fellowship* Oct 2025 – Present

- Develop and evaluate domain-specific prompts to assess large language model (LLM) performance in the image domain, analyzing outputs for accuracy, clarity, and alignment with task objectives
- Contribute expert review, feedback, and independent research to support prompt development and evaluation tasks, improving AI understanding of complex visual concepts

Private Tutor, Kennesaw, GA Jan 2020 – June 2023

- Provided individualized instruction in mathematics (Geometry, Algebra I & II, Precalculus, Calculus I & II, and Introductory Statistics), helping students improve conceptual understanding and academic performance
- Tutored Spanish at beginner through intermediate levels (Spanish I–III), reinforcing grammar, vocabulary, and cultural context

LEADERSHIP EXPERIENCE

Keystone Fellowship, *Phase 2 Fellow & Mentor*, Athens, GA Oct 2025 – Present

- Selected as 1 of 40 fellows to mentor and guide 4–6 first-year fellows through a 20-week leadership accelerator focused on field specific readiness & professional growth
- Engaging in executive-lead bootcamps, leadership workshops, and cross-disciplinary consulting and shadowing projects

UGA's Peach State Louis Stokes Alliance for Minority Participation, *Advisory Board*, Athens, GA April 2024 – May 2025

- Lead in planning Career Fair Preparation, Graduation Planning, and Well-Beings events
- Served as a mentor and resource for other LSAMP scholars planning to go into graduate school and research
